**DETAILED ACTION**

This action is in response to Request for Continued Examination filed November 24, 2008 and Amendment filed November 3, 2008. Applicant amended claims 1 and 11.

*Response to Arguments*

Applicant's arguments, see Amendment, filed November 3, 2008, with respect to claims 1 and 11 have been fully considered and are persuasive. The rejection of claims 1 and 11 has been withdrawn. Applicant amended the claim language to overcome the prior art of record.

*Allowable Subject Matter*

Claims 1-9 and 11-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 11, the prior art of record fails to teach or suggest an optical lens component with a central lens having an optical axis having spaced parallel surfaces that extend perpendicular to the optical axis and are on different planes, a non random light scattering structure comprises indentation located on the spaced parallel surfaces in the different planes and light absorbing means adjacent the non random light scattering structure.

The Doi reference has an optical axis from the top of the page to the bottom as shown in Fig. 4. The faces with the light scattering material are on the same plane even though they are separated by an air gap. Therefore Doi fails to teach the light scattering elements are different planes and the examiner can find no rationale for adding additional light scattering elements to the Doi reference.

The remaining claims depend from claims 1 and 11 and are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
